

# Understanding Teenager

In reply to a question about young people going into the Ministry, Pastor Dieter Trümpelmann said: “Young people can be encouraged by our active involvement with them and our encouragement in this direction. The call to the ministry must come from God and from people.”

The Circuit Conference also heard reports from the congregations. In his report on St. Andrew’s Pastor Lutz referred to the introduction of Contemporary Services “with traditional and new songs and methods”, adding: “As worshipping is the most important vehicle of Evangelism we have to improve and revise our ways again and again.” He also mentioned the Bible Sharing groups, which “contribute towards spiritual growth and enable the participants to talk about their faith more easily.”
